

AP Physics C/walkSTEM Rubric

Group Members

Category	Exemplar Description	Maximum Points	Earned Points
Subject Knowledge	Full knowledge of physics is demonstrated through thoughtful and effective explanation and elaboration on physics concepts. Complex physics topics are explained in a straight-forward manner.		
Use of Language	Uses appropriate, descriptive scientific language that is not overtly “jargony.” Concepts are clear and professionally explained.		
Visual Aids	Visuals (images and video) to support language are clear, detailed, effective and enhance the presentation.		
Central Message	Purpose of the presentation is clearly stated and “obvious” to the audience.		
Physics Location Connection	The locations selected demonstrate the appropriate physics concept; and the physics described matches the location.		

Route	The walkSTEM is manageable and well-connected.		
Presentation	A well-defined flow in which the presentation moves easily between slides, and maintains a consistently smooth pace throughout the presentation.		
Presentation Style	Speaker is clear and confident. Gives a professional impression. Effective use of audio.		
Narration	The narration is excellent. The voice is clear and understandable, and spoken at a pace that is easy to understand. You use words that are easily understood by an audience with no known background knowledge.		
Audience Connection	Your topic and its significance to your viewer is exceptionally clear. You have conveyed the required facts in a captivating manner.
